#1. It cannot be determined from the notes if the tests were performed in a scientifically acceptable manner.

#2. The results are not adequately documented in the notes. The notes are not dated or initialed, are in pencil instead of ink and use abbreviations difficult to interpret. The technician did not document the recovery of hair of fibers from the evidence.

Review completed at: 10:15 AM (Time), 10/24/02 (Date)
